

PAS 68 CRASH TESTED SECURITY PLANTER

INNOVATIVE LOW COST SOLUTION

Anti-Terrorist Fixed and Removable Universal Slimline Planter (BSI PAS 68:2010)

PLANTER 40 STOPS 7.5 TONNE TRUCK AT 40MPH/64KPH

The Safetyflex universal slimline planter is the worlds smallest crash rated security planter and is the only slimline planter in the marketplace that is universally designed to be made to any sized required. The planter is designed as surface mounted with a shallow foundation. This system is so shallow it reduces the need to re-divert utilities.

This slimline security designed planter can easily fit onto narrow walkways outside banks, train stations, sports stadiums and will not take up large amounts of floor space and is very aesthetically pleasing. One great advantage with this system is the planter is only 100kg in weight so you need no heavy plant to off load or move it into place. The minimum length is 1.48 metre long and the width is 450mm or to whatever the client requires.

The planter has been crash tested to BSI PAS68 to stop a 7.5 tonne truck travelling at 40mph or 64km/h at 90 degrees from breaking through the security

CARSTOPPER 30 PAS68 VEHICLE PERFORMANCE CLASSIFICATION

VEHICLE TEST WEIGHT	VEHICLE CLASS	VEHICLE SPEED	VEHICLE ANGLE	VEHICLE PENETRATION	25KG+ DISPERSION
