

SPRINGLINE 50

(IWA14:2013) V/7200[N3C]/80/90:8.5

SHALLOW MOUNT IWA 14 CRASH TESTED FENCE

This new generation of crash fence has been designed to protect perimeters from any terrorist, criminal or accidental attacks. The IWA 14 Springline 50 crash fence has been designed for hostile vehicle mitigation. Safetyflex Barriers were commissioned to specially design a crash fence, with a very shallow foundation of only 400mm that could be installed into soft ground.

This IWA 14 Springline crash fence is designed to protect key sites like airports, MOD Bases, oil and gas infrastructure, or any other facility that requires hostile vehicle mitigation measures along the fence line, from any vehicle attack. The Springline 50 can be installed in short and long runs, and can stop a 7200kg truck at 80kph.

APPLICATION

- ▶ Airports
- ▶ MOD Bases
- ▶ Oil and Gas Infrastructure
