

TRUCKSTOPPER 3

(BSI PAS68:2010) V/7500 [N2]/48/90/0.0/0.0
(BSI PAS68:2010) V/7500 [N2A]/48/45/3.3/0.0

LOW COST ZERO PENETRATION HIGH SECURITY SPRING BOLLARD SYSTEM

The new low-cost Truckstopper 3 is the ideal solution for perimeter fencing or as stand alone bollards. It is designed to meet the threat of anti terrorist attacks and can be assembled easily and quickly.

"ZERO PENETRATION UPON IMPACT FROM 90 DEGREE ANGLE"

Truckstopper 3 post foundations are only 400mm deep and 1m wide. This security solution was successfully rated at MIRA to BSI PAS68:2007 with a 7.5 tonne truck at 30mph (48kph)

Truckstopper is designed to rival existing add on like perimeter fences or street furniture design for quick fitting. Once installed, it needs no ongoing adjustment. Needing only repainting, the spring steel is crafted to stand 20 year weathered conditions. The bollard can be fitted with either a mild steel shroud (as above) or a stainless steel shroud.

PRODUCT SPECIFICATION

- ▶ Height above ground: 900mm
- ▶ Footing Depth: only 400mm
- ▶ Options: Stainless steel & mild steel shroud available
