

TRUCKSTOPPER 6-30

(PAS68:2010) V/7500 (N2)/48/90:2.8/0.00
(IWA14-1:2013) V/7200 (N2A)/48/90:3.0

LOW COST SHALLOW MOUNT SINGLE FIXED/REMOVABLE BOLLARD

The new technology TRUCKSTOPPER 6-30 has a small super light weight base plate - 46kg only. This patent pending design is a technology break through in a removable single shallow footing bollard systems of 200mm deep, that will mitigate a 7.5 ton truck at 48 km at 90 degrees from breaking through the security line. If access is needed the bollard can be removed in minutes.

The 200mm deep single shallow bollard will also reduce the need to re divert utilities. The system is the most economical on the market and very aesthetically pleasing. This bollard is small and easy to install. This system is designed to follow the contours of the ground and can go around corners. If the post gets damaged after an attack they can be removed from the slipper box and replaced with no need to remove or replace the concrete foundation.

Once fitted the only maintenance is to repaint when needed or the bollard can be covered with a mild or stainless steel shroud.

APPLICATION

- ▶ Airport
- ▶ Sports Arenas
- ▶ Retail Parks
- ▶ Police Stations
- ▶ Critical Infrastructure
- ▶ Government Buildings
- ▶ Concurrence Centers
