

SURFACE MOUNTED PLANTER (PAS68:2010) V/7200[N21/64/90:5.5

BULLET PROOF, CAN BE USED AS RETREAT AREA

Due to the popularity of Safetyflex's surface mount Crash Block, our design team have responded to client requests to transform the block into a Surface Mount Planter that can be integrated with a bench to fit seamlessly into existing public realm schemes whilst providing instant HVM protection.

Surface Mount Planter 40 has been crash rated to mitigate a 7.5 tonne truck travelling to 64kph. It is completely free standing, requires no foundations, pinning or fixings, so can be installed in as little as one hour, eliminated the need for length and unpredictable excavation works.

An additional benefit of the Surface Mount Planter is that as well as providing instant HVM protection, it can also be used as flood defence along river banks.

KEY FEATURES

- ▶ No ground fixing
- ▶ Bespoke size options available
- ▶ Completely free standing
- ▶ Once hit, planter can be removed
- ▶ Low cost installation

APPLICATION

- ▶ Airports
- ▶ Sports Arenas
- ▶ Retail Parks
- ▶ Police Stations
- ▶ Critical Infrastructure
- ▶ Government Buildings
- ▶ Conference centres
