

IWA-14 RISING ARM BARRIER ARRESTOR

Application

- ▶ Government Sites
- ▶ Sports Arenas
- ▶ Data Centers
- ▶ Airports
- ▶ Train stations
- ▶ Conference Centres

Eagle Automation has a range of PAS68 tested products that support the street furniture scene. Eagle has teamed up with professional horticulturalists to create a unique and bespoke range of planters, that can be combined with APT's crash tested modular system.

IWA-14 RISING ARM BARRIER ARRESTOR

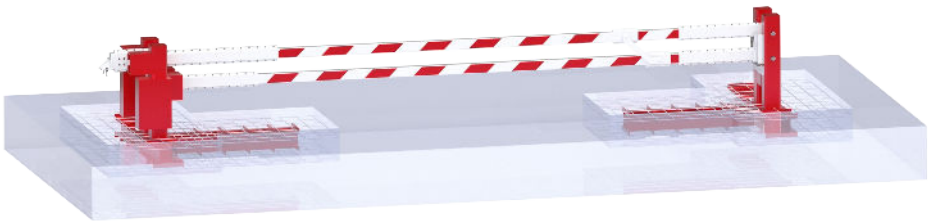

The Eagle Rising Arm Barrier is the latest addition to the Eagle's portfolio of crash tested products. Tested at a clear opening of 7.1m, it meets the Secure Before Impact (SBI) criteria utilising an automatic or manual locking pin on the closing portal.

NEW PRODUCT
